DIVISION OF FACILITIES CONSTRUCTION AND MANAGEMENT
MARLA WORKMAN, CONTRACT COORDINATOR
4110 State Office Bldg., Salt Lake City, Utah 84114

DESCRIPTION OF WORK

The only contractors allowed to bid on this project will be contractors short-listed by the selection committee.

The purpose of this project is to replace some of the existing overhead power distribution system for the Utah National Guard (UNG) at Camp Williams with a new underground system that provides separate zone loops allowing for fault isolation. The base is fast approaching full capacity of the system, and currently one fault takes down the entire base. The existing 12.5 kv overhead lines will be removed after a new underground distribution system is installed which will require new pad mounted transformers, secondary service drops, and new roadway lighting as well as a new building to house the 12.5 kv electrical gear.

The expected total budget for the project is \$ 12,000,000. This project is funded entirely from the Federal Government stimulus package. At this time the UNG has approximately \$5,200,000 available for construction and anticipates receiving up to an additional \$6,000,000. Due to the funding method the project will be bid with multiple additive alternates. As additional funding becomes available, alternates may be awarded as a change order. Alternates will be accepted in the order they are listed on the bid form. There is no guarantee that the low bidder will be awarded additional alternates under this RFP. The Contractor will be required to honor the alternate bids for the duration of the contract. In the best interest of the State of Utah, DFCM reserves the right to re bid alternates that are not awarded to the low bidder.

The area of work is the main base area east of Redwood Road and above the canal. Overhead lines west of Redwood Road will not be included, and there are small areas extending to areas below the canal that will also remain as overhead lines. The project involves underground concrete encased duct bank, new pad mounted transformers, pad mounted Vacuum Fault over current gear, secondary distribution, site roadway lighting, relaying and over current devices, an engineered metal building to house the new 12.5 kv switch gear, high voltage cable and equipment including testing, asphalt and concrete paving, pot holing to locate underground utilities, and repair of underground lines such as irrigation. The engineered metal building will include doors and hardware, mechanical ventilation, insulation, signage, electrical, and lighting. The UNG and DFCM contracted inspectors will monitor the project and witness testing to insure compliance with the project testing requirements.

Some areas have been identified as solid rock and may require additional effort to trench. Those areas will be identified during the bid process. There will be a site identified at Camp Williams as a spoils dump site for clean fill only. All other spoils such as concrete, asphalt and sod shall be removed from Camp Williams and legally disposed of.

The successful contractor will be responsible to provide a metal building for the new switch gear. The metal building is a design/build element of this project requiring the contractor to provide engineered construction drawings for the building including footings and foundations. Specifications for the building are included in the bid documents. The contractor's engineered drawings shall be stamped by a State of Utah Professional Engineer for their respective disciplines. DFCM will provide a geotechnical report within the bid documents to use as a basis of design. The contractor will be required to submit their stamped drawings within four weeks of the notice to proceed. The DFCM project plans and the contractor's metal building plans will be submitted to DFCM building officials to be reviewed and approved for construction. The project can be mobilized, but construction can not begin until the DFCM plans and the contractor furnished metal building plans are approved by the DFCM State building officials. Davis Bacon Wages do not apply.

Individual contractors or alliances between two or more contractors are allowed in this process to form a team. However, one contractor or firm MUST be declared as the lead firm representing the team. If the team is short-listed through this multi-step process, the state will only enter into contracts with the lead contractor or firm. The lead contractor or firm must be licensed by the State of Utah and comply with and require all of its subcontractors to comply with the license laws as required by the State of Utah.

DOLLAR AMOUNTS FOR LISTING

PROJECTS UNDER \$500,000: ALL FIRST-TIER SUBS \$20,000 OR OVER MUST BE LISTED
PROJECTS \$500,000 OR MORE: ALL FIRST-TIER SUBS \$35,000 OR OVER MUST BE LISTED

- List subcontractors for base bid as well as the impact on the list that the selection of any alternate may have.
- Bidder may not list more than one subcontractor to perform the same work.
- **If there are no subcontractors for the job that are required to be reported by State law (either because there are no subcontractors that will be used on the project or because there are no first-tier subcontractors over the dollar amounts referred to above), then you do not need to submit a sublist. If you do not submit a sublist, it will be deemed to be a representation by you that there are no subcontractors on the job that are required to be reported under State law. At any time, DFCM reserves the right to inquire, for security purposes, as to the identification of the subcontractors at any tier that will be on the worksite.**

LICENSURE:

The subcontractor's name, the type of work, the subcontractor's bid amount, and the subcontractor's license number as issued by DOPL, if such license is required under Utah Law, shall be listed. A bidder may list 'Special Exception' in place of a subcontractor when the bidder intends to obtain a subcontractor to perform the work at a later date because the bidder was unable to obtain a qualified or reasonable bid under the provisions of U.C.A. Section 63A-5-208(4). The bidder shall insert the term 'Special Exception' for that category of work, and shall provide documentation with the subcontractor list describing the bidder's efforts to obtain a bid of a qualified subcontractor at a reasonable cost and why the bidder was unable to obtain a qualified subcontractor bid. The Director must find that the bidder complied in good faith with State law requirements for any 'Special Exception' designation, in order for the bid to be considered. If awarded the contract, the Director shall supervise the bidder's efforts to obtain a qualified subcontractor bid. The amount of the awarded contract may not be adjusted to reflect the actual amount of the subcontractor's bid. Any listing of 'Special Exception' on the sublist form shall also include amount allocated for that work.

GROUND FOR DISQUALIFICATION:

The Director may not consider any bid submitted by a bidder if the bidder fails to submit a subcontractor list meeting the requirements of State law. Director may withhold awarding the contract to a particular bidder if one or more of the proposed subcontractors are considered by the Director to be unqualified to do the Work or for

such other reason in the best interest of the State of Utah. Notwithstanding any other provision in these instructions, if there is a good faith error on the sublist form, at the sole discretion of the Director, the Director may provide notice to the contractor and the contractor shall have 24 hours to submit the correction to the Director. If such correction is submitted timely, then the sublist requirements shall be considered met.

CHANGES OF SUBCONTRACTORS SPECIFICALLY IDENTIFIED ON SUBLIST FORM:

Subsequent to twenty-four hours after the bid opening, the contractor may change its listed subcontractors only after receiving written permission from the Director based on complying with all of the following criteria.

- (1) The contractor has established in writing that the change is in the best interest of the State and that the contractor establishes an appropriate reason for the change, which may include, but not is not limited to, the following reasons: the original subcontractor has failed to perform, or is not qualified or capable of performing, and/or the subcontractor has requested in writing to be released.
- (2) The circumstances related to the request for the change do not indicate any bad faith in the original listing of the subcontractors.
- (3) Any requirement set forth by the Director to ensure that the process used to select a new subcontractor does not give rise to bid shopping.
- (4) Any increase in the cost of the subject subcontractor work is borne by the contractor.
- (5) Any decrease in the cost of the subject subcontractor work shall result in a deductive change order being issued for the contract for such decreased amount.
- (6) The Director will give substantial weight to whether the subcontractor has consented in writing to being removed unless the Contractor establishes that the subcontractor is not qualified for the work.
