GARY R. HERBERT  
Governor

GREGORY S. BELL  
Lt. Governor

Department of Administrative Services

KIMBERLY K. HOOD  
Executive Director

Division of Facilities Construction and Management

DAVID G. BUXTON  
Director

## ADDENDUM NO. 1

Date: June 14, 2010

To: Consultants

From: Bruce Whittington - Project Manager

Reference: Statewide Facility Condition Assessments and Infrastructure Assessments  
Division of Facilities Construction and Management  
DFCM Project No. 10194300

Subject: **Addendum No. 1**

Pages	Addendum Cover Sheet	2 pages
	<u>Buildings List</u>	<u>17 pages</u>
	Total	19 pages

**Note:** *This Addendum shall be included as part of the Contract Documents. Items in this Addendum apply to all drawings and specification sections whether referenced or not involving the portion of the work added, deleted, modified, or otherwise addressed in the Addendum. Acknowledge receipt of this Addendum in the space provided on the Bid Form. Failure to do so may subject the Bidder to Disqualification.*

While we contend that SB220 should only be potentially applicable to a contract issued after the effective date of said bill, this is to clarify that for purposes of this contract, regardless of the execution or effective dates of this contract, the status of Utah Law and remedies available to the State of Utah and DFCM, as it relates to any matter referred to or affected by said SB220, shall be the Utah law in effect at the time of the issuance of this Addendum.

**1.1 SCHEDULE CHANGES:** There are no Project Schedule changes.

**1.2 GENERAL ITEMS:** Questions/Answers

**1.2.1** Question: Can you please provide information on the FCA database currently in use by the state?

**Answer:** Our current database is the AMS system provided by ISES Corporation.

- 1.2.2** Question: We assess the billing practices and rate schedules for utility accounts for municipalities, among other businesses. Is there is a need for those services in this project?  
Answer: Utility billing auditing is not part of this program. The State already has two firms under contract performing this service.
- 1.2.3** Question: Which firm(s) have done this work previously?  
Answer: ISES Inc, and Carter & Burgess Inc.
- 1.2.4** Question: Can we see a copy of a completed report for one of the buildings?  
Answer: Preference is to see what each firm submits on their own. Firms qualified to perform these assessments should know the requirements and submit their own approach.
- 1.2.5** Question: Have the previous firms used a particular software or program to do the surveys?  
Answer: Refer to page 5 (second page of Project Description), second bullet item, last sentence
- 1.2.6** Question: How many buildings/sites so you anticipate having a firm complete in a year.  
Answer: Refer to the NOTICE TO CONSULTANTS, page 3. DFCM is soliciting proposals on approximately 18,000,000 square feet over the next five years. Approximately 1/5 of this amount will be required annually. This amount may vary slightly depending on final cost proposal.
- 1.2.7** Question: Can you tell us where we can purchase the AMS database software?  
Answer: The AMS database is a proprietary web based application provided to DFCM by our previous contracted firm for facility condition assessments. The firm is ISES Inc. headquartered in Stone Mountain, Georgia. I do not believe the product is commercially for sale, but I recommend you contact ISES Inc. directly for that answer. The AMS database does allow data population and manipulation through the front end web application.
- 1.2.8** Question: Can you provide a list of the buildings of the facilities to be evaluated and their locations?  
Answer: Attached is a list of buildings that have previously had a condition assessment completed in the last 10 years. These buildings are scattered over all parts of the state, but a large portion of them are located between Provo and Logan.

**Building Name**
