Consultants shall submit past performance and reference information by the time indicated on the Project Schedule.

For all DFCM projects completed in the last five years identify the project by name, number and DFCM project manager. Each consultant wishing to compete for this project that has not completed at least three DFCM projects in the last five years, will be required to provide one copy of a list of references on all commissioning projects that were/are under contract by the consultant for the last three years.

Firms may include management plans for one or both projects in their proposals, i.e., one bound document. Please clearly identify specific roles and personnel for each project.

12. Statements of Qualifications

The submitting firm shall provide five copies and two CDs of the Statements of Qualifications by the time indicated on the Project Schedule.

If the firm cannot certify these two statements the firm shall submit a written explanation of the circumstances for review by DFCM. These certifications are to be submitted with their Statement of Qualifications.

15. Interviews

Interviews will be conducted with all firms who have met all of the requirements for submission. This evaluation will be made using the selection criteria noted below base on the information provided by the past performance/references, performance plan and statement of qualifications.

The purpose of the interview is to allow the firm to present its qualifications, past performance, management plan, schedule and general plan for accomplishing the project. It will also provide an opportunity for the selection committee to seek clarifications from the firm.

The proposed primary project management personnel, including the project manager, must be in attendance. The primary project manager is the firm's representative who has overall job authority, will be in attendance at all job meetings, and is authorized by the firm to negotiate and sign any and all change orders in the field, if necessary. The following criteria will be used in ranking each of the teams. The team that is ranked the highest for each project will represent the best value for the state. The criteria are not listed in any priority order. The selection committee will consider all criteria in performing a comprehensive evaluation of the proposal. Weights have been assigned to each criteria in the form of points.

- A. DFCM Past Performance Rating. 10 Points. Each prime firm will be given a past performance rating. The rating will be based first on how well the firm did on past projects with DFCM. If a minimum of three DFCM past performance ratings are not available a rating will be established using any DFCM past performance ratings that are available, supplemented by information obtained by DFCM contacting references supplied by the firm at the time the Management Plans and SOQ are submitted.
- B. Strength of Team. 30 Points. Based on the statements of qualifications, the interview, and management plan, the selection team shall evaluate the expertise and experience of the team and the project lead as it relates to this project in size, complexity, quality, duration, etc. Consideration will also be given to the strength brought to the team by critical consultants including how they were selected and the success the team has had in the past in similar projects.
- C. Project Management Approach. 30 Points. Based on the information provided in the statements of qualifications, the management plan and information presented in the interview the selection team shall evaluate how each team has planned to approach the project. The selection team will also evaluate the degree to which risks to the success of the project have been identified and a reasonable solution has been presented.
- D. The degree to which the consultant demonstrates it has the capacity and commitment to devote the necessary time to the project and to assist in maintaining the project's schedule and quality. **15 Points.**
- E. The degree to which the consultant demonstrates that it can optimize the functioning of the systems to be commissioned. **15 Points.**

Should DFCM be unable to agree to a satisfactory fee with the top ranked firm at a price that DFCM determines to be fair and reasonable to the State, discussions with that firm shall be formally terminated. Negotiations will then be undertaken with the second ranked firm.

This process will be repeated with the next highest ranked entity and so forth until a mutual agreement is reached or DFCM determines that it is in the best interest of the State to initiate a new selection process.

18. Form of Agreement

At the conclusion of negotiations, the selected consultant will be required to enter into an agreement using the attached form of the Professional Services Agreement.

18. Licensure

The consultant shall comply with and require its subconsultants to comply with the license laws of the State of Utah.
