

State of Utah, DFCM

Training for:

Building Demolition Requirements

DFCM is sponsoring awareness training to cover recent rule changes and requirements when performing demolition of state owned buildings and facilities.

The training will provide steps and direction for all general contractors, demolition contractors, architects, engineers, facilities managers, construction project managers; construction representatives of state agencies and higher education.

Topics and objectives to be covered:

6 steps to building demolition to include State of Utah, Division of Air Quality Rules
Background on asbestos
Health effects
Uses and examples of asbestos
LEED and recycling issues
Questions and conclusions

To geographically accommodate all who have expressed interest, 2 training sessions have been scheduled at 2 locations:

Southern Utah University
Cedar City, Utah
Hunter Conference Center (Map Attached)
Charles Hunter Room
Monday January 7th, 2013
1:00 PM – 3:00 PM

Capitol Hill Complex
Salt Lake City, Utah
State Office Building
1st Floor Auditorium
Thursday January 10th, 2013
1:00 PM – 3:00 PM

Please make every effort to attend.
