7 August 2013

Agency: Utah National Guard

Project Name Camp Williams South Garrison Infrastructure Corridor – A/E Services

DFCM Project No.:13240480

DFCM Project Manager: Wayne Smith

SELECTION COMMITTEE JUSTIFICATION STATEMENT

The selection committee would like to express its appreciation to all of the teams that proposed for services on the above referenced project. The selection committee selected EFT Architects based on the following detailed conclusion supporting the selection in accordance with the selection criteria:

DFCM Past Performance Rating:

This score is based on the average of ratings for previous projects as explained in the RFP.

Strength of Team:

EFT Architects exemplified exceptional knowledge of the project and how this project impacts the overall future development of the lower South Garrison at Camp Williams. All key personnel on their project team possess extensive work history and experience working with National Guard contract procedure, accounting and funding issues, and federal requirements from National Guard Bureau, Washington D.C. Having an architectural firm on the team is most helpful in addressing issues of how the infrastructure of this project will enhance and accommodate the future expansion of the south garrison at Camp Williams

Project Management Approach:

EFT Architects distinguished themselves by specific emphasis in making certain that all shareholders involved in the project convene in a pre-design charrette to ensure that all details and project requirements and needs are addressed prior to design so that everyone's needs are addressed and resolved during the design process.
