

**DFCM**  
WILL SPONSOR A PRESENTATION  
BY THE **STRUCTURAL ENGINEERS ASSOCIATION OF UTAH**  
**SEISMIC COMMITTEE**  
ON THE REQUIREMENTS OF IBC (INTERNATIONAL BUILDING CODE)  
SECTION 1613.1 AND ASCE 7-05 CHAPTER 13.

**WHEN:** November 23, 2009  
**TIME:** 1:00 PM to 3:00 PM  
**Where:** State Office Building Auditorium

The State Building Official will require the submittal of drawings and calculations to satisfy this code requirement before final drawings are approved. This presentation will inform you of the code requirements as well as the documentation to be submitted to the Building Official for approval.

**SEISMIC BRACING OF NONSTRUCTURAL ELEMENTS**

**PRESENTED BY**  
**STRUCTURAL ENGINEERS ASSOCIATION OF UTAH**  
**SEISMIC COMMITTEE**

**SPEAKERS and TOPICS**

- **John Masek, SE**
  - Why is non-structural seismic bracing important?
  - Where is the current state of practice?
  
- **Don Barker, SE**
  - What must be braced?
  - Typical construction details. (Do they work?)
  
- **Stephen Cohen**
  - Who is responsible?
  - What code documentation is required?
  - What to look for in the field.

There is no cost, and space is limited, attendees are required to RSVP to Charlotte, 801-538-3268 or by email [csalevur@utah.gov](mailto:csalevur@utah.gov) by November 16<sup>th</sup>.
